

1> a> Importance of Healthcare DATA

1> EVIDENCE-based Decision Making

1) 6) TYPES of Data

ELECTRONIC
MEDICAL
RECORDS

Medical Image
(Xray, CT scan)

Histopathology

Multi Omics
qPT-M

TIME
SERIES
Data

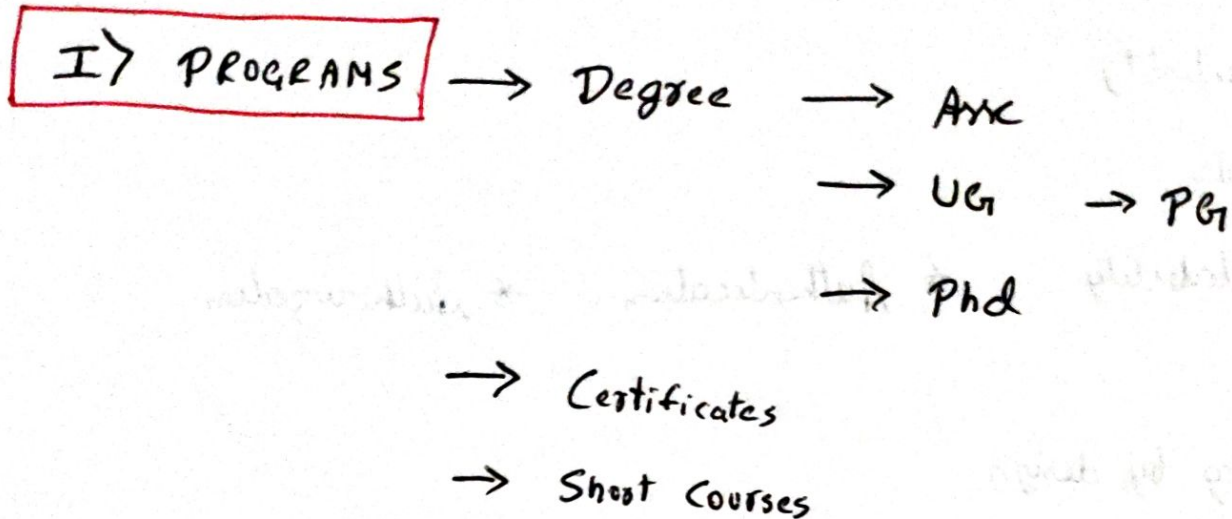

Handwritten
Clinical
Notes

Social
Media
Data

--- EPIDEMIOLOGICAL DATA ---

2) a) Programs, Organization, Career in HI

II> ORGANIZATION

- * AMIA → 4k
- * IMIA
- * IMIA
- { * NeH }
- { * CBHI }
- * AHIMA
- * HIMSS
- * ANI → 3k

III> CAREER

- | | | | |
|--------------|------|--------------|-------------------|
| * CNIO | * NI | * HI Analyst | * HI Manager |
| * Consultant | * CI | * DS Analyst | * Project Manager |

2) b) Fundamental principles of Security & Privacy

* Confidentiality

* Integrity

* Availability

* Authentication

* Authorization

* Privacy by design

* Compliance with regulation

* Patients Rights & Consent

* Incident Response & Reporting

3) a) Challenges with EHR adoption

\$\$\$	Financial Barrier	\$\$\$
--------	-------------------	--------

Security

Privacy

Compliance

3) b) EMR

Digital Version of paper record

Can't be shared

Diagnosis

Simple, Cheap

Less useful for research

Used in small healthcare

EHR

Digital Record of patient's history

Shared across medical faculty

Decision-making

Complex, Expensive

4) a) Medical Coding

* ICD

→ WHO → ICD-10 → 70,000 → 451 · 765 · A

DISEASES

* CPT

MSD services → Medical, SURGICAL, Diagnostic

* HCPCS

L1 → CPT

L2 → Billing medical equipment

* LOINC

Laboratory Tests

* SNOMED - CT

Diseases

Procedures

Findings

wide range

* Rx NORM

Clinical Drugs

REIMBURSEMENT

Healthcare

CODE

GOVT

Insurance Claim

Medicare

Medicaid

PM AYS

4) b) Importance of Standards

Data Accuracy

Uniform Defn

Error Reduction

Better Clinical Decision

7. Interoperability

Data Sharing

Integration (with EHR)

HIE

Consistent Data for → Research

→ BDA

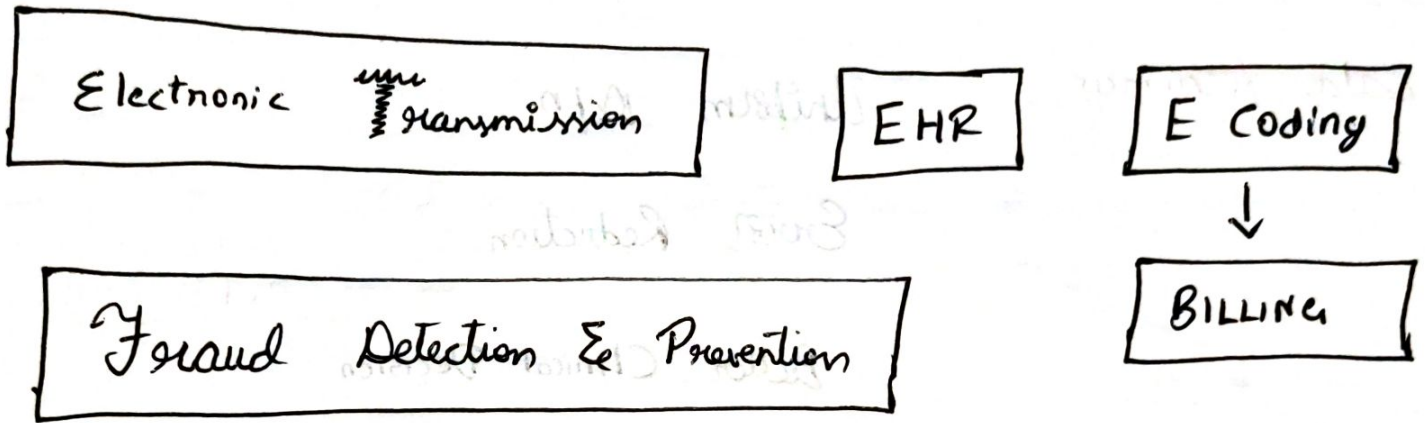

→ AIML

5) a) = 3) a)

5) b) = 2) b)

6) b) = 2) a)

6) a) HI modules to streamline process

 Fraud Analysis

 Physician Profiling

QC

IE

Barcode & RFID

6 Tele Medicine

7) a) Org

IOM AAMC \Rightarrow Academic Org

$\left. \begin{array}{l} \text{B to E} \\ \text{LF} \end{array} \right\} \Rightarrow \text{Pub-Priv}$
from 2a

7) b) lim = 3) a)

8) a) = 2) b)

8) b)

EHR HIE CDSS Telehealth
mhealth Patient Portals

AINL BDA

9) a) AUTH

Password 2FA SSO Smart Card
Encryption Biometric RBAC Monitoring
